Campfire fun with edible geology projects nightly. Tools, collecting access and guides provided. Bring lots of boxes, as you'll have a car full of great rocks to take home! Fee is per person. Geology - Rockin' Rainier

This fun-filled, educational trip focuses on the long history of Seattle's closest volcanic neighbor. The mountain Rainier is the second volcano to occupy this site. You'll learn to read the rocks for clues to the demise of the original, as we collect agates, jasper, crystals, pumice and more, all of which owe their existence to Washington's volcanic heritage. We'll trace the violent explosions and quiet eruptions that built the Cascades, all outside the park, so you can keep the treasures we find! We'll spend Saturday night in a comfy, mid-priced motel in Kelso (approximately \$75 per family of four), where you'll dig into our evening edible geology program. Bring a change of clothes, some lunches, and a garden shovel. We'll provide all other tools and collecting access. Program letter with directions will be mailed prior to class. Fee is per person.
